Movember is the leading charity changing the face of men’s health. In this high-impact session led by Mitch Hermansen, we will talk men’s mental health and the importance of social connection – specifically, how can we empower employees to start conversations and support those in our lives who we think might be struggling?

You will learn about the challenges men typically face with their mental health (3 out 4 suicides in Canada are by men), but also highlight that these statistics are preventable and that we all have a role to play in supporting the mental health of those close to us - and it can be as simple as reaching out and starting a conversation.
