

C-Councils

Network, share, and learn with fellow C-level executives.

WHO IS IT FOR?

Designed for CEOs and executives in the tech sector who want to network, share, and learn with like-minded leaders. We offer sector-focused C-Councils for several industry verticals, as well as functional C-Councils for those in specific executive roles within tech organizations.

WHAT IS IT?

C-Councils are peer forums designed to facilitate a content-rich dialogue among technology CEOs and C-level executives to share insights, best practices, and challenges; with a goal of building better businesses. Current C-Councils include:

- AI C-Council
- CEO Growth C-Council
- CFO Council
- Clean Tech C-Council
- D&I C-Council
- Digital Health C-Council
- Gaming C-Council
- Product C-Council
- SaaS CTO C-Council
- Social Impact C-Council

HOW IS IT DELIVERED?

C-Councils are high impact with a low time commitment. Most groups meet quarterly and are designed to facilitate a content-rich dialogue among technology CEOs and executives to share insights, best practices, and challenges; with a goal of building better businesses.

Meetings take varied forms, with emphasis placed on peer-to-peer networking as well as a chance to hear from external speakers to provide members with real-life case studies and insights.

WHY IS IT UNIQUE?

Each C-Council is carefully curated to ensure that participants are in similar (but non-competitive) businesses and at similar stages of growth. This ensures a peer exchange that is specific, meaningful, and highly relevant to every member.
