

Members of the AI C-Council

BC Tech's C-Councils are peer groups that bring together technology CEOs and executives to share insights, challenges, and best practices – all with the goal of building stronger businesses and a stronger tech community.

The AI C-Council is designed exclusively for CEOs and executives of growth/scale stage AI companies. The company must work within the AI, machine learning and/or natural language processing sector, either selling a product or using systems for internal processes within this area.
