

Members of the HealthTech C-Council

BC Tech's C-Councils are peer groups that bring together technology CEOs and executives to share insights, challenges, and best practices – all with the goal of building stronger businesses and a stronger tech community.

The HealthTech C-Council is designed exclusively for CEOs and executives of growth/scale stage health-related technology companies, including biotech and medtech.

Health-related technology companies refers to the use of technology, electronic communication tools, electronic records management, services and processes including biotech and medtech to deliver health care services to facilitate better health.
